Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 – 4, 6 – 7, 9 – 14, 16 – 17, 19 – 24, 26- 27 and 29 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent Application No. 2007/0259688 (Forte).

With respect to claims 1 – 3, 9, 11 – 13, 19, 21 – 23, 27 and 29, Forte teaches a method and system where a PBX 14 receives an incoming call directed to the PBX (Paragraph 0025) , routing the call based on user preferences (Paragraphs 0021, 0033 and 0034) and routing to a computing device (Paragraph 022).

With respect to claims 4, 14 and 24 note paragraphs 0021 and 0033.

With respect to claims 6 and 16, such would be inherent.

With respect to claims 7 and 17, note paragraph 0022.

With respect to claims 10 and 20, note paragraphs 0046 and 0049.

With respect to claim 26, such a limitation is inherent.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8, 18, 28 and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Forte.

With respect to an icon being displayed on a computing device for indicating an incoming call, such is notoriously old in the art and it would have been obvious to one of ordinary skill in the art to have provided such wherever it was deemed necessary.

With respect to claim 30 and the limitation of a headset, such is also notoriously old in the art and would have been obvious to one of ordinary skill in the art to use a headset whenever it was deemed necessary.

Claims 5, 15 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Forte in view of U.S. Patent No. 6,266,539 (Pardo).

Forte discloses the instant limitations except for the docking station aspects. However, note that Pardo teaches such (see at least Figs. 10A, 10B, 11A and 11B). It would have been obvious to one of ordinary skill in the art to have incorporated such a docking station in which once removed from the docking station the calls are switched to a preferred device as disclosed by Pardo into the Forte device, as such would only entail one PDA system for another.
